I-95 Improvements with Express Toll Lanes

SAFETY IMPROVEMENTS:

- Modified the traffic pattern on SB I-95 at I-895, giving priority movement to the majority of motorists who continue along I-95.
- Modified the traffic pattern on NB I-95 and I-895, giving the priority movement to the majority of motorists who are on I-95.
- Improved highway lighting along I-95 and at all ramp entry and exit points.
- Installed new directional and informational signing.
- Improved pavement with inlaid pavement markings and raised pavement markers.
- Upgraded Intelligent Transportation Systems (ITS), including traffic cameras and dynamic message signs (DMS).
