I-95 Improvements with Express Toll Lanes

SAFETY IMPROVEMENTS:

- Replaced 2 structurally deficient bridges carrying MD 43 over I-95.
- Eliminated weaving for exiting / entering traffic on I-95 and MD 43.
- Constructed fully directional ramps for higher volume traffic movements from EB MD-43 to NB I-95 and WB MD-43 to SB I-95.
- Will eliminate the weaving at the SB I-95 to WB MD-43 merge area for traffic turning left at Honeygo Boulevard.
- Improved highway lighting along I-95 and at all ramp entry and exit points.
- Installed new directional and informational signing.
- Improved pavement with inlaid pavement markings and raised pavement markers.
- Upgraded Intelligent Transportation Systems (ITS), including traffic cameras and dynamic message signs (DMS).
