

I-95 EXPRESS TOLL LANES

In July 2005, the Maryland Transportation Authority received approval to construct ETLs along Section 100. Section 100 spans from the I-95/I-895(N) split to north of MD 43. The I-95 Express Toll Lanes project will ease congestion and increase safety by adding ETLs, making improvements to the mainline roadway, and reconstructing overpass bridges and interchanges.

Proposed interchange for I-95/I-695

Proposed I-95/I-895 (N) Split

Proposed interchange for I-95/MD 43

CONSTRUCTION SCHEDULE

- Fall 2005 to Spring 2007 – Rossville Boulevard Bridge Breakout Project
- Spring 2006 to Fall 2007 – Cowenton Avenue and Joppa Road Bridges Breakout Project
- Fall 2006 to 2011 – Construction of the Mainline (Including the I-95/I-895(N) Split, I-95/I-695 and I-95/MD 43 Interchanges)
