

WELCOME

Trent M. Kittleman
Executive Secretary

On behalf of the Maryland Transportation Authority, thank you for taking the time to attend this public workshop. The Authority is currently working on the initial phase of project planning activities for improvements to the John F. Kennedy Memorial Highway from north of MD 43 to north of MD 22.

Tonight's workshop will:

- *Familiarize you with the need for the project*
- *Present the results of project planning to date*
- *Provide an opportunity for you and all interested individuals, associations, citizen groups, and government agencies to provide verbal and/or written comments*

The displays provide information about the project and illustrate alternates currently under consideration. Members of the project team are present to discuss the project and address any concerns, comments and suggestions that you may have.

Thank you for your participation!
